

Execution Breakdown System:

Layer 1
Psychology
(Human Behaviour)

- Fear of Blame
- Low Trust
- Hiding mistakes
- Avoiding accountability

Layer 2
Process /
System Issues

- No Ownership (department-level-only)
- No daily planning
- No root cause clarity
- Long unstructured meetings
- Manual follow-ups by analysts

Layer 3
Business Impact

- No real visibility
- Repeated delays
- Red items never close
- Scaling breaks at 8 projects
- CEO lacks actionable insight

Root Problem

= no ownership
+
no psychological
safety

Core Insight :- operational
issues are not just process
problems, they are behavior
